

MT. HEALTHY WORK SESSION

April 4, 2023

Tonight's Topic: Compton & Perry Intersection

Work Session called to order by President of Council stand-in Kisha Dosa at 8:07 p.m.

➤ City Manager shared the following data with council:

| | | |
|--|---|--------------|
| February 7 th - Cones placed in parking spots | } | No accidents |
| March 7 th - Cones removed from parking spots | | |
| March 11 th - Accident | | |

➤ Discussion

- Ms Rissel noted that it is the workers who use the street parking, not their customers. Why can't the workers park in the public lot? Led to discussion of trucks and vehicles parked in public lots, on streets.
- Mr. Bauer said that he, Melanie, Chief Deidesheimer and Justin did a drive around the city. Chief Deidesheimer was pointing out cars with flat tires, a party bus that was parked, vehicles without tags, etc. He is making this a priority.
 - Traffic violations
 - Overnight parking
 - Broken down cars

Work session after May 2nd council meeting, Chief Deidesheimer will attend.

- What are their truck ratings? Discussion of Aspen Air and Pickens Window; what we enforce on others would include them as well. Trucks allowed to park in public lots but in violation of City Ordinance. Do we change the language of the Ordinance? Paid parking? NCH now has an impound lot.
- Suggestions:
 - 1) Change language of the Ordinance.
 - 2) Paid parking
 - 3) Sticker on window to move by x date or be towed. If no license plate, can tow immediately.
 - 4) Post no parking signs

➤ Compton & Perry Intersection

- Speed humps on E-bound Compton Road.

Adjournment: Mr. Parsons made a motion to adjourn, seconded by Ms Rissel. An aye vote carried the motion and the meeting was adjourned at 8:42 p.m.
